

EMPIRE ZOYSIA TURF

Empire Zoysia (Zoysia japonica 'SS500') is a premium, medium-bladed warm-season turf that raises the bar for Australian lawns. Bred for beauty and performance, it delivers a lush, carpet-like finish with far less work than traditional grasses like Buffalo, Couch or Kikuyu.

Perfect for Queensland's climate – from water restrictions to coastal conditions – Empire Zoysia thrives where others struggle.

Quick Care Guide

Water deeply but infrequently once established

Mow regularly at 30–40 mm for best look

Light fertiliser 2–3 times per year

Minimal dethatching required

Discover the Luxury of

Empire Zoysia (Zoysia japonica 'SS500') is a premium warm-season turf specifically bred to thrive in harsh coastal conditions.

From SE QLD beaches to the Capricornia and beyond, Empire Zoysia handles salt spray, sandy soils, strong winds, and water restrictions better than traditional grasses like Buffalo or Kikuyu.

It delivers a rich, dark-green, carpet-like lawn with minimal effort — even in challenging seaside environments.
