

We Know Buffalo
and Sapphire is
unbeatably soft
underfoot.

Sapphire Soft Leaf Buffalo is a premium, deep-green, and fine-textured turfgrass renowned for its high shade tolerance (up to 70%), rapid recovery, and soft, luxurious feel. It is ideal for Australian residential lawns, offering excellent drought tolerance, low maintenance, and high wear resistance for pets and kids.

TURF SUPPLIES

Main Benefits

High Wear Tolerance & Quick Recovery. Handles foot traffic well and repairs itself rapidly, making it durable for active families.

Drought Tolerance — Deep root system helps it survive dry periods with less watering once established—water-wise and resilient in Australia's variable climate.

Low Maintenance — Requires less mowing and fertilising than many grasses; produces minimal seed heads (great for allergy sufferers).

Vibrant Year-Round Colour — Deep green with a subtle blueish (sapphire) tinge; holds colour well through winter.

Dense Growth & Weed Resistance — Forms a tight mat that crowds out weeds naturally.

Quick Care Guide

Mowing: 2–5 cm in sun/light shade; 5–7 cm in heavier shade. Mow every 5–10 days in growing season.

Watering: Deep, infrequent sessions; drought tolerant once established.

Fertilising: Twice yearly (early spring and autumn) for best results.

Establishment: Lays quickly and spreads via stolons for fast coverage.

Discover the Luxury of Sapphire

Sapphire® Soft Leaf Buffalo is a premium turf variety specially bred for Australian conditions. It delivers a beautiful, deep green lawn with a soft, luxurious feel underfoot. Known for its fine texture and outstanding performance, it combines elegance with toughness—ideal for family backyards, shaded areas, and high-traffic homes.
